Professional Summary

Computer Science undergraduate focused on cybersecurity, AI Security and Linux-based development. Experienced in building scalable web applications, automating workflows, and working with low-level Linux environments. Strong interest in ethical hacking, system internals, and security research.

Skills

- **Languages:** Python, JavaScript, SQL, Bash
- **Web Technologies:** HTML, CSS, Node.js, Rest APIs
- **Frameworks:** FastAPI, Flask, Express.js
- **Tools & Platforms:** Linux, Git, GitHub, VS Code, Postman
- **Databases:** MySQL, PostgreSQL, Supabase
- **Domains:** Cybersecurity, Backend Development, Networking, Web Security

Projects

Student Dashboard Platform

- Developed a full-stack student dashboard platform for managing attendance and academic information
- Optimized backend request handling and implemented queue-based processing to reduce server load during peak traffic
- Designed searchable student interfaces with responsive UI components and filtering features
- Successfully handled usage from 4000+ students within the first week of deployment

Timeline Task Manager

- Built a timeline-oriented task management system focused on dynamic scheduling and task dependency visualization
- Implemented advanced task controls including timeline adjustments, prioritization, and progress tracking
- Designed a custom workflow structure different from traditional list-based task managers

Certifications

- Google Cybersecurity Professional certified May 2026

Education

B.Tech in Computer Science and Engineering

Swarnandhra College of Engineering and technology
CGPA: 8.4

2024 – 2028

Achievements

- 1st Place – CodeStorm, Abhyudaya Technical Fest
- Participant – Smart India Hackathon 2025
- Participant – Business Plan Competition
- Built and deployed student-facing applications used by thousands of users
